ECSS-Q-HB-60-02 Acknowledgements

The first draft of the ECSS-Q-HB-60-02 Handbook was authored and agreed upon by the following persons:

M. Alles, University of Vanderbilt (process and layout level)

D. Loveless, University of Vanderbilt (analogue & mixed-signal circuits)

M. Nicolaidis, TIMA laboratory (digital circuits)

F. L. Kastensmidt, Universidade Federal do Rio Grande do Sul (digital circuits & FPGAs)

M. Violante, Politecnico di Torino (embedded software)

M. Pignol, CNES (system architecture)

This first draft was prepared based on volunteer contributions of the authors and was the result of a contract between ESA and TIMA which finished in 2012 and was led by:

B. Glass, European Space Agency

R. Velasco, TIMA

Between 2013 and 2015 a new improved version was created with the contributions of the ECSS-Q-HB-60-02 Working Group formed by:

F. Anghinolfi, CERN

J. Bertrand, CNES

V. Ferlet-Cavrois, ESA

A. Fernández León, ESA (convener)

G. Kempf, RUAG

E. Liegon, Thales Alenia Space

J. A. Ortega Ruiz, Airbus Space & Defence

C. Tran Thi, OHB

S. Verhaegen, IMEC

the following experts were consulted by the ECSS-Q-HB-60-02 Working Group and provided also valuable inputs for improving the Handbook version released for ECSS Public Review in October 2015:

C. Boatella Polo, ESA

E. Daly, ESA

G. Estaves, Thales Alenia Space

L. Fossati, ESA

A. Grau-Llovera, Thales Alenia Space

D. Hollamby, Airbus Space & Defence

A. Hönle, OHB

R. Jansen, ESA

G. Machel, OHB

D. Merodio Codinachs, ESA

C. Poivey, ESA

P. Reviriego Vasallo, Universidad de Nebrija

O. Ried, Airbus Space & Defence

R. Weigand, ESA
